11/15/82 S2520-1

Illinois Department of Public Aid

MONTHLY REPORT OF PUBLIC ASSISTANCE IN ILLINOIS
September 1982

Public Assistance rolls in Illinois increased 9,163 persons between August and September to 1,056,868 persons; cases rose 4,573 to a peak for recent years of 531,482. September expenditures among the State-aided programs totalled $212,651,400, including $85,289,500 in grants to recipients and $127,361,900 paid to medical vendors. Included above were the Aid to Families with Dependent Children program, Assistance to the Aged, Blind, or Disabled, the Medical Assistance--No Grant program, Aid to the Medically Indigent, and General Assistance in Chicago. Excluded from all totals were downstate GA receiving units, all GA nonreceiving units, and the federally-funded programs, i.e., Refugee Resettlement, Cuban Phasedown, Cuban/Haitian Entrant, and Food Stamp programs.

AFDC Openings Surge. Reflecting an exceptionally large number of openings this month, the AFDC caseload advanced 5,052 persons over its August level to a current total of 719,306 persons in 229,685 cases. Openings for which reasons were tabulated numbered about 9,900, including a record 3,132 cases opened after the family was determined to be living below agency standards. Cases added to the rolls following exhaustions of unemployment benefits continued high, at 1,184.

The program's basic sector rose 3,741 persons between the last two months to 654,835 persons in 214,433 cases; cases were up 1,420. The unemployed sector advanced 1,311 persons to 64,471; cases increased 336 to 15,252, still below the March 1982 count of 15,885. Payments in the combined program of $101,752,500 comprised $67,728,000 in grants and $34,024,500 spent for medical care. Grants averaged $294.87 per family and $94.16 per person. These averages should be interpreted in light of the fact that a small number of eligible families did not receive grants and among the rest, certain children ages 18 through 20 were entitled to medical care only.

AABD Drops. Grant recipients under the Assistance to the Aged, Blind, or Disabled program numbered 30,132 in September, 38 fewer than in August and another low for recent years. The current total included 5,933 aged, 297 blind, and 23,902 disabled recipients. State Supplemental Payments amounting to $1,627,700 were received by 25,045 certified persons, averaging $64.99 per capita. Interim Assistance grants amounting to $891,200 were received by 5,087 persons in PE status, averaging $175.19 each. Medical payments on behalf of AABD grant recipients and "0" grant persons, together, totalled $5,812,400 in September, or $185.10 per capita among the 31,402 persons in eligibility status.

Medical-Only Rebounds. A three-month downtrend on the part of the Medical Assistance-No Grant program was halted by a rise of 298 persons over the August level, to a current total of 186,752 persons in 163,149 cases. That upturn would have been greater but for the continued decline of the foster care segment. The number of foster care children eligible for medical services dropped 333 in the latest single month to a 10,205 total. Payments during September were $543,100, or $53.22 per child in the program. Aged,

(over)

blind, or disabled "0" grant persons also fell this month, by 38 to 1,270. Medical payments for these persons were inseparable from those for the AABD grant program.

The count of aged, blind, or disabled persons categorically eligible for medical care only increased 266 over the August number to 135,215. Expenditures of $59,825,600 on behalf of these one-person AABD-MANG cases averaged $442.45 per case on the rolls. Persons in families categorically eligible for medical only (AFDC-MANG) also increased, by 319 to 30,414 persons in 13,490 families. Medical expenditures on their behalf were $2,631,800, or $195.09 per eligible family. The AFDC-extended medical segment rose 84 persons over its eight-year low in August to a September total of 9,648 persons in 2,969 families. Payments on their behalf were included with medical payments for AFDC grant families.

AMI At Peak. Payments totalling $4,053,500, or $421.76 per case, were made during September on behalf of 9,611 Aid to the Medically Indigent cases comprising 12,958 persons; the person total was 2,209 above that of a month earlier. Both cases and persons were at all-time highs in the report month.

GA-Chicago Up Again. Chicago's General Assistance program recorded long-term peaks in terms of both cases and persons this September as the recipient count increased 1,642 over the month before to a 107,720 total. Cases rose 1,448 to 98,905, reflecting increases in all regions: The number of Metro North cases advanced 176 to a 19,360 total; Metro West, 258 to 26,314; Central, 368 to 24,916; and Metro South, 699 to 28,244. City-wide cases fell 53 to a total of 71. Expenditures of $22,187,600 included $15,042,600 in grants and $7,145,000 paid for medical care; grants averaged $139.65 per capita.

Other GA Activity. Local governmental units outside of Cook County which received State GA funds reported 12,062 persons in 10,955 General Assistance cases in August, the latest month of available data. Outlays, partly from local funds, amounted to $2,007,600, including $1,424,200 in grants and $583,400 spent for medical care. There were no GA receiving units in suburban Cook County.

Nonreceiving units in most counties in the State, including suburban Cook, accounted for 16,863 persons in 8,334 GA cases in August. Assistance totalled $963,300, comprising $779,400 in grants and $183,900 in medical payments. Caseloads and expenditures for these units were partly estimated.

Refugees no longer entitled to assistance under federally-funded refugee programs due to their length of stay in the United States beyond 18 months became eligible for General Assistance and/or AMI in downstate counties beginning September 1. States can claim federal funds for these individuals up to their third year of residence in the U.S.

Refugee Resettlement. The Refugee Resettlement Program's grant component peaked in June 1982, at 9,589 persons in 3,359 cases. Declines in each month since then, including 432 fewer persons in September, have reduced the load to 8,851 persons in 3,236 cases. The medical-only component has been in a downtrend in most months since its high of 329 persons in 104 eligible cases in July 1981. The September 1982 total of 237 persons in 78 cases was off 6

persons from a month earlier. These trends may continue in view of the ineligibility, effective September 1, of refugees who have lived in the United States longer than 18 months.

Cuban Phasedown and Cuban/Haitian Programs. A record low of 84 persons in 61 Cuban Phasedown grant cases, currently, reflected a one-month drop of 7 persons. There have been no medical-only cases since June. The Cuban/Haitian Entrant Program's grant component comprised 1,347 persons in 1,150 cases in the report month, 32 persons less than the August total. Last month's one-person medical only case was replaced by a four-person case this September.

Food Stamp Program. A sharp increase of 16,478 participants in the Food Stamp Program between July and August was followed by a rise of 1,773 persons this month, netting an all-time high of 1,096,532 persons in 422,634 households. ATP documents and food stamps delivered directly to recipients were valued at $44,906,900 in September, averaging $106.25 per household and $40.95 per household member.

Applications--All Programs. Applications for all programs numbered 50,623 currently, down 939 from the near-peak recorded in August. The recent total included 2,647 for AABD grants, 15,238 for AFDC, 13,103 for the Medical Assistance--No Grant Program, 7,702 for Aid to the Medically Indigent, and 11,933 for General Assistance in Chicago.

AFDC Applications. The September total of 15,238 AFDC applications received, 706 below the August level, included 12,085 for the basic sector and 3,153 for AFDC-unemployed. Denials in the combined programs represented 38.5 percent of applications processed, an increase from last month's very low rate of 37.4. September rates were 34.5 percent of AFDC-basic activity and 53.9 percent of that for AFDC-U. Applications pending fell 104 from a month earlier to 9,612 as of September 30. The latest number was 64.6 percent of September's heavy processing pace.

AFDC Openings and Closings. The 9,899 openings in September for which reasons were available have been exceeded only by the artificial number generated by the Social Security Enumeration Project in August 1977. A peak 3,132 openings, or 31.6 percent of the current total, were charged to "family living below agency standards". Other major reasons included loss of employment, 19.9 percent; parent left home, 15.5; exhaustion of unemployment benefits, 12.0; and all other, 21.0 percent.

Receipt of employment or increased budgeted earnings accounted for 17.9 percent of the 7,694 closings tabulated by reason. Noncooperation with redetermination requirements was responsible for 14.1 percent of the closings; whereabouts of family unknown, 13.1; lack of legal residence, 12.5; requested cancellation, 10.4; and miscellaneous reasons, 32.0 percent. Tables detailing reasons for opening, by sector, in the June-September 1982 period, and reasons for closing, by sector, in the July-September 1982 period have been attached.

a/ Includes the following: aged, blind, or disabled cases for which grants were paid this month; cases in the Aid to Families with Dependent Children program for which maintenance grants were paid; aged, blind, or disabled "0" grant cases, persons categorically eligible for medical care only, AFDC-extended medical care cases, and foster care children under the Medical Assistance--No Grant program; the aid to the Medically Indigent program; and recipients of General Assistance in Chicago. Data for GA receiving units downstate not available.

b/ General Assistance caseloads and expenditures in units receiving State funds available for the City of Chicago only. Suburban Cook County units do not receive State GA funds. GA receiving units downstate reported $2,007,600 expended on behalf of 12,062 persons in August.

c/ Includes $891,200 expended on behalf of 5,0897 PE cases, averaging $175.19 per case.

d/ Medical payments on behalf of 1,270 "0" grant cases, 376 aged, 14 blind, and 880 disabled, are included; however, case and person totals for these "0" grant cases are included under the Medical Assistance--No Grant program, and not under Categorical Grant Cases.

e/ Medical payments for these cases are included in the total shown for the AFDC grant program.

f/ Amounts shown were paid by this Department for medical care of children in programs under the Department of Children and Family Services.

g/ Federal Food Stamp Program administered by this Department. No State funds are included in Food Stamp dollar amount. "Cases" refer to households.

NOTE: An additional $13,326,000 was spent under Medical Assistance for such things as hospital reconciliation, medical transportation, etc.

TAZEWELL	5,223	40	1,260,557				
UNION	1,989	118	400,906				

a/ Includes the following: aged, blind, or disabled persons for whom State Supplemental or Interim Assistance Payments were made this month, or in "0" grant status, persons in AFDC families and those eligible for AFDC-extended medical care, persons categorically eligible for medical care only, foster care children carried on Cook County medical-only rolls, persons in General Assistance receiving units, and persons receiving Aid to the Medically Indigent.

b/ Rates based on total population on April 1, 1980, as reported by the U.S. Bureau of Census.

c/ Amounts of assistance paid for persons specified in a/ above. All foster care children and medical payments on their behalf are included in Cook County totals, regardless of county of residence. Mass debits and credits not allocable by county totalled $419,712. Non-medical vendor payments of $400,052.00 also not allocable by county.

NOTE: An additional $3,113,000.00 was spent under medical assistance for such things as hospital reconciliation, medical transportation, etc.
